

OBAKENG MOSOPA

Junior Software Developer

Johannesburg, South Africa | (+27) 64 614 8716 | Obakengobucks520@gmail.com
linkedin.com/in/obakeng-mosopa-7a31b4366 | github.com/Obakeng520

PROFESSIONAL SUMMARY

Computer Science graduate from Tshwane University of Technology passionate about web development. Eager to contribute skills as a Junior Developer in environments that encourage growth, teamwork, and problem-solving. Proven ability to build full-stack applications using Java, PHP, Python, and SQL.

TECHNICAL SKILLS

- **Programming Languages:** Java, PHP, JavaScript, Python, SQL, PL/SQL, HTML, CSS.
- **Frameworks & Libraries:** Java EE (EJB, JPA, Servlets), Flask, TensorFlow, NumPy, Tailwind CSS.
- **Tools & IDEs:** Git, GitHub, NetBeans, Visual Studio Code, Android Studio, Atom.
- **Concepts:** MVC Architecture, RESTful APIs, Agile Methodologies, Object-Oriented Programming.

EXPERIENCE

Software Developer Intern | InvestHoodIT

September 2025 – February 2026

- Developed and maintained full-stack web features using Java, PHP, HTML, CSS, and JavaScript.
- Wrote and optimized SQL queries to support efficient data retrieval and database management.
- Collaborated with the development team to troubleshoot bugs and resolve technical issues within an Agile framework.
- Participated in code reviews and daily stand-ups to ensure adherence to coding best practices and project timelines.

PROJECTS

Movie Search Application

Vanilla JavaScript, Tailwind CSS, TMDB API

[GitHub Repository](#)

- Built a cinematic movie search dashboard using Vanilla JavaScript and Tailwind CSS, featuring a visually engaging and highly responsive user interface with dynamic backgrounds.
- Integrated the TMDB API to fetch and render comprehensive movie data asynchronously, implementing advanced features like genre filtering to enhance content discoverability.
- Engineered a "favorites" system utilizing browser Local Storage, allowing users to save and persist their preferred movies across sessions without requiring a backend database.

Weather Dashboard Web App

HTML, CSS, JavaScript, REST API, Chart.js

[GitHub Repository](#)

- Developed a responsive weather dashboard utilizing HTML, CSS, and vanilla JavaScript, featuring a modern, interactive Glassmorphism UI.
- Integrated the OpenWeather RESTful API to asynchronously fetch and display real-time weather metrics and a 5-day forecast.
- Implemented dynamic data visualization for hourly temperature trends using the Chart.js library.

Easy Trade App

Python, Flask, TensorFlow, NumPy

- Co-developed a product scanning web application designed to estimate pricing for used goods.
- Integrated TensorFlow and the MobileNetV2 pre-trained model to perform real-time object recognition.
- Built a RESTful API using Flask to process images and serve JSON predictions to the frontend.

Student Final Mark Web App

Java, Java EE, MVC, SQL

- Architected a full-stack grading system using the MVC (Model-View-Controller) design pattern.
- Implemented business logic in EJB to automatically calculate marks and pass/fail statuses.
- Created a statistical reporting engine using complex JPQL queries to analyze class performance.

Encryption Web App

Java, Java EE, EJB, JPA

- Engineered a secure messaging platform decoupling business logic from the presentation layer.
- Implemented a custom substitution cipher algorithm within Stateless Session Beans for data encryption.
- Utilized JPA to persist encrypted messages and metadata, ensuring data integrity.

EDUCATION

Diploma in Computer Science

2022 – 2026

Tshwane University of Technology

National Senior Certificate

2020

Lodirile Tswaing High School

CORE COMPETENCIES & LANGUAGES

- **Competencies:** Problem Solving, Strategic Planning, Time Management, Team Collaboration.
- **Languages:** English, Setswana, Sesotho, Sepedi.
